

## Registering your project, programme of activities, component project under the A6.4 mechanism? Don't miss the deadline for submitting prior consideration.

### A6.4 Projects:

- All activity participants interested in registering their mitigation activity as an Article 6.4 activity must submit a “prior consideration notification” through [this dedicated interface](#) within *180 days* from the project activity’s “start date” determined according to the [Article 6.4 activity standard for projects](#).

### A6.4 Programmes of activities (PoA):

- **New PoA start date:** Activity participants interested in registering their mitigation activity as an Article 6.4 programme of activities must submit a “prior consideration notification” through [this dedicated interface](#) before submission for Global Stakeholder Consultation.
- **Retrospective PoA’s period start date:** For programme of activities, if the activity participants wish to set the start date of a PoA period after 31 December 2020 and before 18 July 2024, please submit the “prior consideration notification” before **14 January 2025** to avoid missing the deadline.

### A6.4 Component projects (CP):

- The activity participants proposing a component project intended for inclusion in a registered A6.4 PoA or a programme of activities planned to be registered in the future must use [this dedicated interface](#). If the CP has already started as per the CP’s “start date” determined according to the [Article 6.4 activity standard for programmes of activities](#), please submit notification no later than *180 days* after the publication of the respective PoA-DD for Global Stakeholder Consultation.
